Articles, XOOPS v2 article management module.  
Version 0.23a

**Please note:** please see docs/UPDATE.txt if you are updating from a previous version.

Changes since last public release (v0.22):

=====

- + Added "posted by" caption, and on/off preference.
- + Added preference for administrator to not increment articles read value when viewing articles.
- + Added message to add articles, which will report if there are no categories and present a link to add one.
- o Cleaned up old and test code in preparation for pre-release 1.
- + Added "
  
- " info caption to article form in admin.
- + Added option to disable the printable version page.
- o Changed table cell width properties for article listing in the index, to make sure they all line up, no matter how long the article title is.

Please [see the info page for this release](#), for more information and notes on this release.
