Articles support e-mail address

Modules

Posted by: AndyM

Posted on : 2004/7/1 16:31:59

The e-mail address used in the current and previous documentation included with the Articles module no longers works due to domain name issues.

If you do need to contact me via e-mail, please e-mail me at andy@sirium.net - future releases will have the new e-mail address.

If you have contacted me about Articles within the last couple of months and have not received a reply, please feel free to e-mail me again.
